

Instructions to Authors

The Annals of the National Academy of Medical Sciences (India), appearing quarterly welcomes the submission of original contributions in all topics of biomedical sciences. Submission of a manuscript for publication in this journal implies that it has not been published and is not under consideration for publication elsewhere.

Review articles will be featured only by invitation. In the case of a multi-author submission, the contribution of each author must be clearly stated. The authors must declare conflict of interest, if any.

Three copies of the manuscript and a CD containing the manuscript complete with tables and figures should be submitted to: The Editor, Annals of the National Academy of Medical Sciences (India), NAMS House, Ansari Nagar, Mahatma Gandhi Marg, New Delhi-110 029.

Preparation of Manuscript

Type the manuscript on one side of bond paper of standard A4 size with 2.5 cm margin all around in double spacing throughout, including the title page, text, acknowledgement, references, tables and legends for illustrations.

Title

The title page should carry (1) the title of the article; (2) a short running title of not more than 10-12 words or 40 characters; (3) name of each author: first name, middle initial and surname; (4) name of the department(s) and institution(s) to which the work is attributed; (5) name and address of the author responsible for correspondence.

Text

The second page should carry an abstract of not more than 150 words and should state the purpose of study, basic procedures, main findings and the principal conclusions. Below the Abstract three to ten keywords or short phrases that will assist indexers should be provided. The third page should begin with the main text which should usually, but not necessarily, be divided into sections with headings: Introduction, Methods, Results and Discussion. In Discussion, emphasis should be given to the new and important aspects of the study and conclusions. The data given in the Results should not be repeated. The Discussion should include the implications of the findings and their limitation and observations should be related to the other relevant studies. Conclusion(s) should be linked with the goals of the study but unqualified statements and conclusions not completely supported by the data should be avoided. At the end of the text under Acknowledgement(s), person(s) who have made substantial contribution(s) to the study may be acknowledged.

References

References to literature cited should be numbered by arabic numerals in parenthesis in the text. At the end of the text on a new page the list of References by numbers as cited in the text should be provided. The style of the examples as given below should be used. The title of the journal(s) should be abbreviated according to the style used in Index Medicus and printed in its January issue each year. Some examples are given below:
